803-943-1014

513 Elm St West Hampton, SC 29924

(check all that apply)

**Please Note:** 

I am requesting information on the availability of:

Water Availability

## WATER AND SEWER AVAILABILITY

Complete both sides of this form if you would like to obtain information on the availability of water and/or sewer service to a location that is currently not served by LRWS, or for changes to the type of service at an existing location.

**Sewer Availability** 

LRWS makes no representation as to the capacity and pressure to the water demands for the above properties. If large demands or fire flows are anticipated, the developer may contact the engineering department to request a flow test.				
LRWS makes no representations as to the capacity or available depth to tie into the sanitary sewer system for the above properties. The developer's site engineer or contractor must perform their own investigation as to the depth, size and material of the existing sanitary main within the street. Sanitary sewer services must be designed in accordance with LRWS Sewer Use Ordinance and SCDHEC Standards for Wastewater Facility Construction (R61.67). Based upon the proposed building and the location and depth of the available sewer, a grinder pump system may be required.				
LRWS will provide a written response within 7 working days of receipt of the completed request form.				
This is not an application for service. Application for water and/or sewer service may be made at the LRWS Office at 513 Elm St. West, Hampton, SC 29924. Application fees must be paid at the time of application for water and/or sewer service.				
Service Location:				
Street Address	3			
Town	TMS/Parcel Number			
Will the property be subdivided? Yes No
